***Please e-mail Nancy to confirm that you are registering.**

Includes:

Five nights stay on beautiful grounds with ocean views

Breakfast each morning

Two dinners (* includes a lobster bake one night)

Inn will release rooms in May

Workshop Description:

All destinations (Summer 2012 ME, VT Orcas Island) are picturesque towns and villages with interesting history, architecture, beautiful landscapes or dramatic seascapes, and local personalities. We will explore the subtleties of photographing people and the land, and learn the art of photographing with natural light while learning to see with the camera. We will also learn how to put images together to

tell a story.

The nature of the week involves local trips, individual and group critiques and daily instruction. We will carpool together. Small class size and friendly atmosphere!

* These workshops are for any level photographer - beginner to advanced. The only requirement is that you should be comfortable with your camera and camera techniques and come to the workshop with a creative outlook!

Common Questions:

How do I register?

Please fill out and mail registration form and check to Nancy Libson. Please call inn to reserve your room.

How will we view images?

In order to take part in critiques you must have the proper digital equipment. You will need a battery charger, batteries, storage devices, card readers, and laptop so that we can review your images. If you don't have a laptop, please bring a thumb drive or disks to view images

Equipment

Camera Equipment:

I recommend any SLR digital camera that you are comfortable using. If you have an additional back-up camera bring that along too.

Lenses:

Whatever you are comfortable using- from wide angle to telephoto

Other equipment:

None of this equipment is essential but if you usually use a flash, tripod or polarizing filter please bring them along. Think about rain cover for your camera, and a camera manual.

Misc Items:

There is an opportunity to swim at all destinations. Please bring rain gear, sunscreen and bug repellent
